Lab. No. D-710412021 LC
D-710412019 LC

Specimens received from Washington Field Office, 4/12/71

Q148 and Q149 Two copies of Memorandum dated 6/17/70,
beginning "The National Association of Black
Students..."

Q150 Copy of six-page "GOOD FRIDAY LITURGY:
APRIL 9, 1971," beginning "This Good Friday
Liturgy is both..."

Specimen received from Philadelphia, 4/12/71

K1245 Samples from typewriters located at the Philadelphia
Community College

Result of examination:

Specimens designated Q148 and Q149 appear to be Xerox
copies of copies that were originally made on a Xerox Model 660
copier. These specimens contain no watermarks or indented writing
of value. The typewriter impressions on Q150 and K1245 were
not prepared with the questioned typewriters used to prepare
questioned specimens previously submitted in this case.

K1245 is being returned to Philadelphia with copies of
this report. Q148 through Q150 are temporarily retained. This
material was photographed.

 FROM: SAC, PHILADELPHIA (52-7165)
 SUBJECT: MEDBURG

Departmental Attorneys [redacted] and ROGER [redacted] both stationed in Washington, D.C., visited the Philadelphia Office today and conferred with SAC ROY K. MOORE. u

Attorney [redacted] pointed out that he has been placed in charge of prosecutive action with respect to MEDBURG and the purpose of his visit was to determine how he could be of assistance to the FBI in this matter. He pointed out that he has previously been involved in the Federal Grand Jury concerning the East Coast Conspiracy to Save Lives (ECCSL) at Harrisburg, Pa., and is familiar with the subjects and suspects involved in that case. He said he has reviewed the reports received to date in MEDBURG and believes that some of the same people are involved in the same case. u

He advised that next week a Federal Grand Jury is being convened in Harrisburg, Pa., at which time superseding indictments will be returned in the ECCSL case. u

He stated the Department is presently considering granting immunity to certain individuals in this case; however, he wanted to be sure to confirm with the personnel [redacted] u

handling MEDBURG to be certain that the granting of immunity to individuals in ECCSL case would not jeopardize any investigation in MEDBURG. u

Attorney [] stated that he noted from the newspapers that there possibly would be a reluctance on the part of individuals with xerox machines to furnish samples from their machines to the FBI. He said the Department is researching this matter, and is considering subpoena duces tecum good anywhere in the United States that can be served by Agents upon their locales wherein a pertinent xerox machine is located for forthwith delivery of specimens to the Federal Grand Jury then sitting. u

b6

He further stated that the Department is researching Section 1510* and 641* of Title 18 to see if any legal steps can be taken concerning certain newspapers that are printing letters from the burglary group to FBI informants and certain newspaper groups and others that are reproducing copies of FBI serials. u

Attorneys [] and [] were cordial. They were furnished nothing that has not been disseminated to the Bureau. They were advised that we will continue to furnish data to the Department via the Bureau concerning MEDBURG. No commitments were made to them. u

GENERAL INVESTIGATIVE DIVISION

Attached pertains to conference between SAC Roy K. Moore and Departmental Attorneys relative to the Medburg investigation. Attorneys expressed concern that granting of immunity to Eastcon subjects during current grand jury hearing in Harrisburg, Pennsylvania, could possibly jeopardize investigation of Medburg since many of same individuals are involved. u

If approved, SAC Moore will be instructed to make no comment if queried with respect to which individuals should be granted immunity, that being a decision of the Department. u

From: The Citizens' Commission to Investigate the FBI

Subject: Public appearance by members of The Citizens' Commission to Investigate the FBI, St. Stephen & The Incarnation Church, 16th and Newton, N.W.; 7:00 p.m., Thursday, April 29, 1971

On Tuesday, April 27th, the following message was telegraphed to the co-ordinators of The Peoples' Coalition For Peace and Justice in Washington, D.C.:

REQUEST CONSENT FOR MEMBERS OF THE CITIZENS' COMMISSION TO INVESTIGATE THE FBI TO APPEAR AT YOUR PEOPLES' LOBBY MEETING, THURSDAY EVENING, APRIL 29, TO REPORT ON INFORMATION REVEALED THROUGH STUDY OF FILES REMOVED FROM MEDIA OFFICE MARCH 8, 1971. POST LARGE "YES" OR "NO" RESPONSE IN NINTH FLOOR MIDDLE WINDOW ON VERMONT AVENUE SIDE OF BUILDING BEFORE 9:00 AM, WEDNESDAY, APRIL 28. IF "YES" WILL CONTACT LATER FOR SECURITY AND POSSIBLE SANCTUARY ARRANGEMENTS.

THE CITIZENS' COMMISSION TO INVESTIGATE THE FBI

Their affirmative response of consent was conveyed, as requested, this morning. Therefore, we invite your coverage of tomorrow's meeting at which time some members of The Citizens' Commission to Investigate the FBI will publicly take responsibility for the removal of files from the FBI office in Media, Pennsylvania on March 8, 1971.

We were prompted to make this public appearance after learning of the remarks made Friday by Attorney General John Mitchell on the danger to national security posed by "domestic subversives." We agree with John Mitchell that the right of the public to protect itself is "implicit in the Constitution's very existence," but we believe that right is best upheld when citizens can scrutinize and control their own government and its agencies.

Because we believe the FBI has betrayed its democratic trust, we wish to present evidence for this claim to the open and public judgement of our fellow citizens.

We also wish to reiterate two other reasons for our action on March 8th:

- our belief that a law and order which depends on intimidation and repression to secure obedience can have but one name: tyranny,
- our belief that democracy can survive only in an order of justice, of an open society and public trust.

ENCLOSURE

52-94527-1433

Our initial report tomorrow will cite some examples of the nature and extent of surveillance carried on by the FBI, particularly against groups like The Peoples' Coalition For Peace and Justice and others who have come to Washington this week to dramatize their demands for an end to the war, and for the necessity of a more just, humane and peaceful society.

We will again, tomorrow, invite others to join us in building such a society that does not wage nor threaten war, which distributes human and material resources fairly, and which operates on the basis of justice rather than fear.

We will also report on the activities of other members of The Citizens' Commission to Investigate the FBI who are taking it upon themselves to investigate the extent of illegal practices carried on by the 59 field offices of the FBI. Practices such as eavesdropping, entrapment, and the use of provocateurs and informers.

Being transmitted under separate cover, registered mail, are pieces of documentary and other miscellaneous physical evidence seized in connection with instant matter described below. The material was seized at a residence, 3007 West Susquehanna Avenue, Philadelphia, Pa., and from a 1965 red Chevrolet station wagon, which was parked in front of the residence at 3011 West Susquehanna Avenue, pursuant to search warrants issued and executed on 2/7/70 following large-scale destruction of draft records at Philadelphia, Pa., on that date. u

These seizures were carried out immediately on 2/7/70 following the personal authorization and preparation of the search warrants by the Assistant U. S. Attorney. u

Large quantities of documentary and other evidence determined to be extremely pertinent by the U. S. Attorney at that time, torn draft records, torn copies of plans and surveillance records, etc., were submitted for fingerprint and other laboratory examinations. The results were relatively unproductive and some material, especially that which the owner of which was readily apparent from its nature and that which appeared to have little apparent probative value or known relevancy

to instant matter was held in abeyance pending further determination of the prosecutive potential of the case as a whole. u

The U. S. Attorney at Philadelphia, Pa., in accordance with specific instructions from the Department did not make any grand jury presentments and did not take any prosecutive steps for an extremely lengthy period of time until it became a definite possibility that this group or at least certain members of it were closely connected with a conspiracy to kidnap Presidential Advisor HENRY KISSINGER and to place explosive charges in heating tunnels in Washington, D. C. u

It is also noted that since the initiation of the EASTCON matter instant evidence has been re-reviewed and pertinent pieces submitted for various examinations. u

In addition, it has also subsequently become a probability that this group or members or associates of members thereof could be suspects in the break-in and theft of documents from the FBI Resident Agency at Media, Pa., on 3/8-9/71. u

In view of the above it is believed desirable to have every article and document seized in instant matter regardless of its patent probative value be examined for possible evidence that it be of value in the investigation or possible prosecution of the latter matters. u

The items enclosed are identified as follows: u

1. Notebook, multicolors of green, blue, gold, light orange, violet and red, with the name written at the top inside cover.

Result of examination:

The questioned hand printing appearing on Q48 and Q49, previously submitted in the MEDBURG case, was compared with the available known hand printing of [redacted] items designated as 4 and 22 in the ASSERO case. Some hand printing differences were noted as a result of these comparisons; however, the presence of some characteristics which could not be explained on the basis of the comparable hand printing available prevented a definite opinion being reached as a result of these comparisons. u

Re Buffalo teletype, 4/9/71 and Albany teletype,
4/15/71.

Enclosed for the Identification Division is an
FD-395 for Latent Fingerprint Examination. u

During the early morning hours, 3/17/71, a fire
of suspicious origin occurred in an Air Force ROTC classroom,
Barton Hall, Cornell University, Ithaca, New York, causing
damage to student desks and tables belonging to Cornell Uni-
versity and also damaged Government property, of less than
\$100. Acting Commander, Air Force ROTC, Cornell University,
advised he was questioned by an individual later identified
as [redacted] on 3/16/71, at approximately
8:00 p.m. regarding Air Force career opportunities. u

Because of subject's indication of violence to draft records and general unstable manner, he is being considered as possible suspect in Medburg. u

The FBI Laboratory is requested to conduct latent fingerprint examination on enclosed FD-395, which subject handled for approximately 15 minutes during an interview, 4/15/71. The only other known prints on the FD-395 would be those of SA [redacted] FBI Lab is requested to compare [redacted] latent prints located on FD-395, with those found at crime scene in Medburg, advising interested offices of results of comparison. u

Interview with [redacted] regarding captioned arson and his attitude toward Selective Service, negative, and to be furnished interested offices by FD-302 under separate communication. [redacted] advised of possibility of his fingerprints being taken at Ann Arbor, Michigan, February, 1971, and Detroit checking, as requested in referenced Albany teletype. u

Result of examination: u

Meaningful comparisons cannot be made between hand
printing and handwriting. Therefore, it could not be determined
whether the questioned hand printing on Q48 and Q49, previously
submitted in this case, was or was not prepared by the writer
of K4354. u

It was determined that the typewriter impressions on
K4354 were not prepared with the questioned typewriters used in
the preparation of specimens previously submitted in this case. u

K4354 is being returned to Philadelphia with copies
of this report. This material was not photographed. u

This is in response to your inquiry of April 20, 1971, to which was enclosed a letter to you dated April 15, 1971, from Mr. Lee L. Kaplan of Princeton, New Jersey. Mr. Kaplan took issue with an interview which had been conducted by Special Agents of the FBI at The Resistance Bookstore in Princeton, New Jersey, on April 15, 1971, and objected to what he termed the "snooping, harassment, and whatever else the FBI is doing to innocent people..."

The facts are two Special Agents of the FBI on April 15, 1971, did conduct an interview at The Resistance Bookstore, 92 Nassau Street, Princeton, New Jersey, in connection with an official investigation involving a violation of Federal laws. During the interview, several individuals entered the bookstore and were requested to leave by the proprietor who told them he wished to continue his interview with the FBI. At no time during the interview did the proprietor indicate displeasure at being interviewed at his place of business.

For your information, The Resistance Bookstore is not located on the Princeton University Campus. It is located in a commercial building in downtown, Princeton, New Jersey.

In accordance with your request, [redacted] letter is being returned herewith.

APPEAL 88-1227

Dear Congressman Casey:

I am "writing my Congressman" because of an extremely disturbing incident currently taking place. About ten minutes ago I went to the Resistance Bookstore, a small one-room store which sells all sorts of books to people in the Princeton area. Profits are donated to antiwar groups--non-violent ones, I'm pretty sure. Anyway, the one person selling at the time was being questioned by two FBI agents. Either they weren't talking about much of anything, or this person was scared as hell. Let me emphasize that this store is not engaged in any business but selling books, and they are not antiwar books, either. Secondly, I can't believe that any of the people I've seen working there are seeking the overthrow of the Government. I doubt that the FBI men were questioning him about activities not related to the bookstore, either. They could have talked to him at home.

The point is, the FBI is spending far too much time investigating people with differing political views. I can't believe that J. Edgar Hoover is allocating his men in such stupid fashion. When the FBI spends time on political rather than criminal activities, by that much is our country short of criminal law enforcement protection. The tendency for this to occur is extremely frightening. I know that the newspapers blow these incidents all out of proportion, but sometimes I wonder if they can be overexaggerated. This is scary. I think Mr. Hoover is becoming, or has become, too powerful politically. And this means that the FBI is becoming an instrument of repression.

That is another over-used word. But it is repression when people are questioned by agents of the national law enforcement agency for their views. This breeds hysteria. It breeds fear. It is antithetical to whatever America is supposed to mean. I am scared as hell myself. I happen to be a fairly conservative individual, but snooping, harassment, and whatever else the FBI is doing to innocent people is insane. And they are innocent people. Even if J. Edgar Hoover does think they're Communists.

Please do something. Anything. This has got to stop.

Sincerely,

b6

Reference is made to memorandum dated 4-26-71 from Mr. A. Rosen to Mr. Sullivan noting that on 4-23-71 the "Washington Post" furnished a packet of documents stolen from the Media Resident Agency. Additionally, on 4-23-71 the Washington Bureau of the "Los Angeles Times" furnished several documents stolen from Media. Included were several communications relating to a Selective Service Act case entitled SSA. Letter from SAC, Indianapolis, to SAC, Philadelphia, dated 1-18-71 received from the "Post" is an original document. Letter from SAC, Philadelphia, to SAC, Indianapolis, dated 11-20-70 furnished by the Washington Bureau of the "Los Angeles Times" is the first copy of this document received at the Bureau for assessment. These documents consist of correspondence between indicated offices relating to information obtained from local Selective Service boards pertaining to Stanton and contain no sensitive data. *u*

The communications do make reference to difficulties on the part of local Selective Service boards in Indiana and Pennsylvania in reconciling Stanton's Selective Service registration complicated by the fact that the Pennsylvania local Selective Service board suffered destruction of records in a break/in 1970. *u*

**COMMUNIST INFILTRATION OF THE WOMEN'S
INTERNATIONAL LEAGUE FOR PEACE AND FREEDOM (WILPF)**

One of the documents stolen from the FBI at Media, Pennsylvania, on the night of March 8, 1971, was a Philadelphia interoffice letter dated September 24, 1965. This document was mentioned in an article which appeared in the April 25, 1971, issue of "The Washington Post" on page 12, captioned "New Set of Stolen FBI Files Said to Contain Originals." u

The Philadelphia letter instructed various field offices to alert sources to any possible communist or other subversive influence in connection with the then upcoming 50th Anniversary banquet of the WILPF. It was noted that Martin Luther King, Jr., would address this group. The letter enclosed a copy of the supplement to the July, 1965, issue of "Four Lights," published by the United States Section, WILPF, which set out names of nominees for the WILPF National Board, together with background data. Offices covering areas where nominees resided were requested to furnish current characterizations of nominees where pertinent. u

Our investigative interest in this organization was predicated upon information received indicating that the Communist Party, USA, had instructed its members to join the WILPF. Our investigation was directed solely toward establishing the extent and result of the infiltration. The FBI was not investigating the legitimate activities of this organization. u

EDITORIAL OF THE AIR

We do not ask that you agree with us....only that you THINK ABOUT IT!

By MARTIN KARANT Broadcast Date MON. 4-19-71

THE F.B.I. DOSSIER ON THE CONGRESSMAN'S DAUGHTER

Congressman Hale Boggs of Louisiana has stirred up a hornet's nest with his unsubstantiated charges that the FBI has been tapping his and other Congressmen's telephones. The Attorney General of the United States has issued a categorical denial of the charge...the FBI has done the same...and many members of Congress have sided with J. Edgar Hoover. We dealt with this subject last week...but we'll repeat that we feel strongly that either Congressman Boggs should put up the evidence he hinted at...or he should publicly and promptly apologize to Hoover and the Bureau.

Another Congressman later reported that an FBI field office had been broken into and some files stolen. In one of the files was reference to the Congressman's daughter...and immediately the hue and cry of FBI Gestapo tactics was raised. Blanket accusations were thrown around to the effect that none of us knows if he is being spied upon by the Bureau.

From what we have learned about the case, we know exactly why the Congressman's daughter was mentioned on an FBI file....she had been a member of the Students for a Democratic Society...the S.D.S. This is an organization that draws almost exclusively from the Communist party its philosophy and its tactics. It's a subversive organization dedicated to the forcible overthrow of our government....why SHOULDN'T the FBI keep track of SDS members?

As of this very moment, some members of the SDS are in the Top Ten...not the Hit Parade...but the FBI'S list of ten most-wanted criminals. And we mean women as well as men. Bernadine Dohrn...an SDS leader...is on that list. If the Congressman's daughter consorts with such as these, she has no kick coming if she finds she's being investigated...and her father, of all people, ought to know that!

There appears to be a concerted effort under way to cause a great loss of confidence on the part of the public in the most effective law enforcement body in our country....as well as ALL law enforcement. We must not fall for this line...it's the sure road to anarchy!

THINK ABOUT IT!

The Q221 through Q223 copies were not associated with the characteristic markings of the questioned copies prepared on Xerox Model 660 and 2400, previously submitted. The particular make or model copier used in preparing the submitted copies, Q221 through Q223, was not determined.

It could not be determined whether the copies submitted were masters used to make additional copies. *u*

The original typewritten impressions appearing on Q223 are not identical with questioned typewriting appearing on specimens previously submitted. This typewriting is too limited to determine or associate this typewriting with a particular make or model typewriter.

These items were obtained in the following way: u

Source TELLER was in conversation with [redacted] during the evening of 4/28/71. [redacted] said she had removed these three items from the bulletin board of the Ad Hoc Committee to Defend the Harrisburg Six which is located at 20 South 12th Street, Philadelphia, Pa. She had taken them ~~in order~~ to destroy but did not want to dispose of them at her apartment. She therefore turned them over to source TELLER who in turn handed them over to SA [redacted].

b6
b7C

Item number one (the envelope and clipping from the "Philadelphia Inquirer") is the same as those which were received by [redacted] at the Federal Youth Center in Ashland, Ky. Supposition is that this item was sent to him by [redacted]. A copy of this same item was also among the documents sent to Congressman MITCHELL. u

b6
b7C

Item number two, that is the press release, has surfaced a number of times. u

Item number three is the single sheet with one line of typing at the top which has not been previously seen here. u

REQUEST ~~RECEIVED~~

FINGERPRINTS

Please conduct latent fingerprint examination of the enclosures. The item is known to have been handled by [redacted] and [redacted]. As far as known here, [redacted] has never been fingerprinted. [redacted] It is probable that the items have also been handled by [redacted]. u

DOCUMENTS

- (1) Determine model of xerox machines used and whether or not comparable to any other exemplars submitted in this case. u

PH 52-7165 SUB A

- (2) Determine if these three sheets may have been used as a master to reproduce others.
- (3) Determine the style of type and make of typewriter used on item three. Determine if typing identical to any others submitted in this case.
- (4) Determine if hand printing appearing at the top of the two news releases is the same and if it is identifiable with any samples previously submitted is the most likely suspect in this regard.)

REASON-FCIM II, 1-2.4.2
DATE OF REVIEW 4-30-91

Reference is made to my letter of April 27, 1971,
which reported that the Washington bureau of the "Los Angeles
Times" furnished us copies of additional stolen FBI documents
which had been mailed to them by The Citizens Commission to
Investigate the FBI. u

DATE: 4-10-87 12/18/89 PB

Enclosed for your information is a summary of
pertinent data relating to several of these documents. u

One item pertains to our efforts to identify three
unknown individuals who visited the Soviet Consular Office,
Washington, D. C., July 22, 1970. Subsequent investigation
identified these individuals, one of whom is [redacted]
The Citizens Commission to Investigate the FBI had mailed to
[redacted] copies of two FBI documents reporting our investigation
of him. On April 22, 1971, [redacted] voluntarily furnished these
copies to our Philadelphia Office commenting that he was not
disturbed by the fact that his identity was being sought by
the FBI. He said that he realized that the FBI had a duty
consistent with internal security responsibilities to investi-
gate individuals in contact with the Soviets. (S) 80-1227-371

K4353 Copy of two-page handwritten and hand printed
(MEDBURG) letter dated 12/1/70, prepared by [REDACTED]
[REDACTED]

Result of examination:

The hand printing on K4353 is not sufficiently comparable with the hand printing on Q48 and Q49 in the MEDBURG case or the unidentified questioned material in the EASTCON case for meaningful comparisons to be made. u

The submitted evidence is retained at the Bureau. u

Black Militarists Get U.S. Funds

By Jack Anderson

The federal government has granted \$523,000 to a bizarre black paramilitary group which the Anti-Defamation League contends is using the money to build up an anti-Semitic mercenary army.

The group's flamboyant commander, Col. Hassan Jeru-Ahmed, denies his Blackman's Volunteer Army of Liberation is against the Jews.

The government is paying him to rehabilitate narcotics addicts. Military discipline is necessary, he contends, to keep them in line. They get close-order drill, he says, but no weapons training.

The taxpayers' \$523,000 contribution assertedly will go to teach them such peaceful pursuits as carpentry and clerking. This will begin Thursday in a converted commissary building in Washington and on a farm in Spotsylvania County, Va.

The Anti-Defamation League says Hassan intends to run the farm as a military camp complete with small-arms training and guerrilla exercises.

Hassan swears no guns are being taken to the farm. The Blackman's Army's only weapons, he says, are handguns kept on the premises to repel drug racketeers. Yet his chief of staff, Maj. Jamal, recently received a 30-day sentence after he dropped a pistol while

passing out literature on Capitol Hill.

Private Prison

The handsome Hassan, whose hair rises from his broad brow like a shock of white wheat, keeps his army under iron discipline. To enforce it, he administers beatings and imposes short-term imprisonment in his own private jail cell.

My associate, Les Whitten, called on Hassan in his "chancery" where black-shirted guards protect him and wire window screens are designed to ward off hand grenades.

He wants to go to Africa at the head of his Blackman's Army. "We won't force anyone to go, of course," he said. "We're in touch with five African nations."

He has spoken tentatively with officials of Nigeria, Zambia, Ghana, Tanzania and, before its downfall, Biafra, about giving his artisan-addict-soldiers a home in the vague future. "Maybe it will be five years, maybe ten, maybe more," He shrugged.

Hassan not only has his own army but his own government, a paper nation that he calls "The Provisional Government of the United Moorish Republic." His troopers swear an "oath of allegiance" to his mythical republic.

Since the United States gives aid to other governments, Hassan sees no incon-

United Moorish Republic. But the United States, which doesn't recognize Hassan's paper government, pays the half-million bucks to the Blackman's Development Center. He receives over \$100,000 a year additionally from foundations, unions, civic organizations, businesses, churches and individuals.

The amazing Hassan collects still another \$169,000 from Washington's Narcotics Treatment Administration to fight heroin through methadone detoxification. Many hard-headed government officials and narcotics experts, though aware of Hassan's private army, insist to us he is doing worthwhile work.

FBI and Xerox

The FBI has tried unsuccessfully to get the Xerox Corporation to provide a sample copy from thousands of its clients' machines so the FBI can find out who duplicated its recently stolen documents.

The company, however, did agree to furnish the FBI's Buffalo, N. Y., office a list of all clients who rent its "660" series copying machines, one of which was apparently used to run off the stolen papers.

The documents, stolen from the FBI office at Media, Pa., and sent anonymously to several newspapers, revealed extensive FBI surveillance of assistance in accepting a black and student activist groups.

Gerard Mulligan, a spokesman for Xerox, said that in addition to the client list, the FBI wanted the company to have its service representatives make an extra, blank copy on every machine they inspected during their regular service calls.

Mulligan explained that every Xerox copy, even the blank ones, have uniform distinguishing markings by which it would be possible to trace an individual copy to the machine which produced it.

He said the marking are caused by slight differences in the surfaces of the internal "drums" on which the copies are printed. The extra blank copies requested were to be turned over to the FBI.

However, Mulligan said, "The top management considered the request and decided against it. What is came down to was the ethical responsibilities of the business."

"If we were to do this," he added, "we had a responsibility to inform our customers it was being done and this would have defeated the FBI's whole purpose."

Mulligan said the request for the client list came several days before the FBI tried to enlist the service department. He said the list was provided because the company felt it was the kind of information a government investigative agency could eventually have obtained by subpoena anyway.

Enclosed for the Bureau are two ROTC training
manuals. u

During the period [] was in contact with FATHER PHILIP BERRIGAN and other principals of EASTCON case he represented himself to them as being an explosives expert. This was not true, however, and he asked handling agent if it would be possible to obtain any books on explosives which he could read and become better versed on explosives. He was particularly interested in books containing information about prima-cord inasmuch as he had suggested the use of this rather than dynamite or plastic explosives. Agents of the Lewisburg RA, through an established source who is an Army officer assigned to the ROTC at Bucknell University, obtained several ROTC training manuals. No record was made of the manuals and they were returned to source. u

During recent debriefing of [] he advised he had told [] he had explosives manuals in his possession. [] was very interested in the manuals and during a meeting in Lewisburg, Pa., on 9/5/70, he borrowed two of the manuals for the expressed purpose of reproducing them to be read by other members of the "movement". On 10/9/70 [] traveled to Lewisburg, Pa., to return one of the manuals to informant. Informant asked where the other

manual was and [] asked him if he realized how difficult they were to reproduce. He said it was necessary to do reproduction when there was no one around. He further advised the informant that [] had assisted him in reproducing the manual. On 10/23/70 [] again traveled to Lewisburg, Pa., to return the second manual. The informant asked him if he realized how "hot" this type of information was and [] said he did and that the copies were secreted at "the farm". Source took this to mean the farm rented by []. During a later conversation with [] after the publicity in the news media concerning the plots to destroy the underground pipes in Washington, D.C., and the plot to kidnap HENRY KISSINGER, [] stated this material had all been destroyed. u

b6
b7c

On 4/17/71 source was recontacted regarding the manuals which were returned to him. He made available one copy each of training manuals FM 5-25 and TM 9-1375-200, which he believes were the ones he originally provided the FBI. As best the Special Agents involved can recall the FM 5-25 was definitely one of the manuals provided the informant but they are not sure of the second manual. The source advised the ROTC has only one copy each of these two manuals. u

Latent Fingerprint Section is requested to process each page of enclosed manuals for latent fingerprints of [] or any fingerprints of value to be compared against principals of EASTCON and MEDBURG. u

FBI Laboratory is requested to conduct any possible examination of pages of manuals which might show they have been reproduced. u

Submitted evidence should be returned to Philadelphia upon completion of examinations. u

FBI Document Calls College Aide a Source

By Betty Medsger
Washington Post Staff Writer

A secretary at Swarthmore College has been an FBI source for at least six years, according to a copy of an FBI document received by The Washington Post yesterday.

Marjorie Webb, secretary to the college registrar, was identified in earlier copies of documents sent out anonymously by the Citizens Commission to Investigate the FBI as "an established source" whose identity should "be protected."

Four copies of FBI documents with Miss Webb's name on them were among 25 received yesterday. They were sent to The Washington Post by Martha Shirk, editor of The Phoenix, the Swarthmore College student newspaper.

Miss Shirk said she received the copies of FBI documents last week from the Citizens Commission, the group that has taken credit for the March 8 raid on an FBI office in Media, Pa.

The Swarthmore College secretary is one of several college employees cited as regular FBI informers in the more than 50 copies of documents that have been distributed by the Citizens Commission. Miss Webb's identity has been revealed in articles in the Philadelphia Evening Bulletin and the campus paper.

Swarthmore president Dr. Robert D. Cross said April 9 that faculty, students and staff members of the Philadelphia-area college risk dismissal if they divulge confidential information to the FBI or other government agencies.

Inquiry Under Way

A campus investigation into whether campus employees were acting wrongly in collaborating with the FBI is now under way at Swarthmore.

One of the four copies received yesterday containing Miss Webb's name as a source was of a November 1965 administration-faculty memorandum.

"Received confidentially from Miss Webb" was handwritten across that memorandum, the subject of which was how college personnel should respond to "inquiries concerning applicants or nominees for governmental positions."

That college document, later passed on to the FBI, said, "Unfavorable information pertaining to an individual's character, morals, conduct or mental condition should not be made available unless required under subpoena."

Miss Webb's relationship with the FBI first came to light in a document received

earlier that described an FBI investigation of the daughter of Rep. Henry S. Reuss (D-Wis.).

Documents received yesterday indicated that surveillance of Miss Reuss, now a senior at Swarthmore, was more elaborate than had earlier been revealed.

One document received yesterday says what grades Miss Reuss achieved in her courses. Other documents reveal that surveillance of Miss Reuss involved the CIA, the Milwaukee Police Department and the Philadelphia Police Department.

Former SDS Member

Miss Reuss formerly was a member of Students for a Democratic Society, but she said she is not involved in any organizations now. Her father has been critical of the investigation of his daughter, saying the FBI has no business compiling dossiers "on millions of Americans who are accused of no wrongdoing."

In regard to investigations of applications for government jobs, an April 1967 document calls for caution on the part of the agent and urges him not to conduct such investigations on campuses unless it is necessary. Persons being interviewed for such background information, said the document, should be fully informed of the reasons for the interviews.

But there was a very different attitude toward "on campus" FBI work last fall when, another document says, "resident agents" were asked to furnish information about the "current number of university or college sources on the academic or administrative staff including security officers... the number of current student security informants or PSIs... potential student informants."

Names Listed

The names of agents and the colleges for which each of them is responsible is listed in that document.

Among the documents received yesterday were copies of the Swarthmore campus newspaper that had been filed by the FBI and copies of memorandums from the Swarthmore Police Department.

Two of the police documents were lists of car license numbers, names and addresses. One list was data about cars, cycles and scooters on the campus without college permits.

 viewed the abovementioned items through a microscope and stated that it is very possible that they are pieces of the standard paper furnished by Olivetti for use in their Copia II, Model 514, machines. The brand name of this paper is NASHUA L-302. *u*

 stated that there are a number of firms which Olivetti refers to as "Pirates" in that they produce paper that can be utilized in Olivetti Copia II machines but they sell the paper to distributors who in turn sell it directly to individuals using the machines. The following is a list of the principal firms which engage in this practice. *u*

 The criteria for paper which is to be used in Copia machines is as follows: *u*

 Additionally,  stated that it appeared as if the enclosed items were from a Copia II Model 514 which was manufactured within the last one or two years. He based this conclusion on the fact that the reverse sides of paper utilized in older machines will have visible lines due to the type of tray in the machine. The more recent machines have polypropylene trays which do not leave lines on the reverse side. However,  cautioned that the processing by the FBI Lab may have removed such lines. *u*

 stated that he would be willing to perform any of the above tests in an attempt to determine the manufacturer of the paper although he repeated that his preliminary examination indicated this to be the standard Nashua paper provided through Olivetti. *u*

If the FBI Laboratory desires to have
perform any of these tests return Q 15, Q 51, and Q 61
